

IMSA Florida Section – 2024 Conference and Trade Show

Traffic Signal and ITS Technical Sessions

Tuesday, June 4th

- 8:00 – 9:45 “TBD”
(Chris Holloway - Polara)
- 10:15- 12:00 “Advanced Monitor Programming” – (William Fox - Synapse ITS (EDI))
- 1:00-2:45 “City of Sarasota CV Project – How Artificial Intelligence (AI) is Improving Signal Operations & Enabling Connected Vehicle Applications”
(Tadd O’Bannion and Pete Ganci – Control Technologies)
“Keys COAST: Lessons Learned from Florida's first Connected Vehicle Design-Build Project”
(Brandon Boyd – PCS, Erik Echezabal – Choice Engineering, Matt Weisman – Ultra Engineering)
- 3:15-5:00 “Using Artificial intelligence for Vehicle/Ped/Bike Detection to improve intersection Safety”
(Temple / CURRUX Vision – Ian Cardozo)
“Abloy Smart Key System” – (TBD - Assa Abloy)
“TBD” – (TBD)

Wednesday, June 5th

- 8:00 – 9:45 “Glance 2024: Improvements and New Features” – (Jeff O’Brian – Applied Information)
“TBD” – (TBD)
- 10:15- 12:00 “Exploring the ATC Cabinet” – (Ben McCawley and Jacob DuBose – Synapse ITS (EDI) and Pete Ganci – Control Technologies)
- 1:00-2:45 “The Benefits of Integrated Intersection Management Technology” -
(Tyler Houston, PE – NoTraffic)
“Red Light Protection - Increasing Safety at Intersections” – (Matt Zinn – SWARCO/McCain)
- 3:15-5:00 “Understanding How AI is Trained and What That Means for Detection & Data”
(Staci Ingram – ITS Plus)
“Cybercabinet – A Better Way to Test Configurations” – (Matt Zinn – SWARCO/McCain)
“TBD” – (TBD)
